Matt Costello – 3116 180th St., Muscatine

I am here representing the staff from the Aquatic Center. When I brought one of the petitions to work I received 27 signatures from employees. All of the rest had already signed at other locations. We are all in support of the Aquatic Center and parking lots being smoke free. We also have no signage posted so daily we have to tell people they can not smoke inside the facility. For people that know the policy they stop at the gate to have one last cigarette and the smoke comes right into the entry way where staff, families, and kids are standing. People will often try anything to go out to the parking lot to smoke. By passing the policy it would eliminate this burden on the staff. We know that we will still have to enforce the policy but at least we will have something to back us. With all of the other things that the management staff has to worry about, arguing with people about smoking is becoming a burden to our job. We try to provide a safe, fun environment for everyone. Eliminating this obstacle would be a way to model healthy behaviors for the kids. I choose not to smoke but I have no choice when people are smoking outside the gate and blowing it in my face. Thank you...
