MEMORANDUM

To: Mayor and City Council Members

Cc: Gregg Mandsager, City Administrator
Dave Gobin, Director of Community Development

From: Adam Thompson, Community Development Coordinator

Date: June 30, 2015

Re: Approve submission of Reconstruct Runway 6/24 and Associated Taxiways Project Grant Application

Introduction: The City of Muscatine received funding from the FAA to complete pre-design and final design of the Main Runway 6/24 Reconstruction Project. The City of Muscatine continues to utilize Anderson Bogert Engineers & Surveyors, Inc., for design and consultant services at the Muscatine Municipal Airport. Bid opening was conducted and 7 bids were received.

BACKGROUND: The Runway Reconstruction Project continues to move forward with the support of FAA partners and the Muscatine City Council. Anderson Bogert has successfully completed design. Bid opening was conducted on June 25, 2015 and 7 bids were received. The apparent low bidder was Manatts from Brooklyn, Iowa in the amount of \$4,510,247.14.

After reviewing bid proposals with the FAA, the FAA determined funding was not available to fund the expanded project in full. The original project was expanded to include the FAA standard turnaround area along the taxiway on the northeast end of the runway. The turnaround section of the project was in a separate Bid Schedule B. The Schedule B bid from the low bidder was originally \$524,547.30 and the FAA has determined they do not have funding at this time to fund the turnaround section. The turnaround will be removed from the runway reconstruction project and included in FY17 taxiway reconstruction project. With Schedule B removed the total bid amount is \$3,985,699.84.

City Staff recommends City Council award a contract to the low bidder, Manatts, Inc., once a grant agreement from the FAA is approved. The City of Muscatine's use of force account staff time was approved by the FAA in the amount of \$35,725.92. The construction observation and oversight agreement with Anderson Bogert is \$130,538.55. Administrative funds are requested in the amount not to exceed \$10,000.00 and there is a \$1,500.00 cost for the required engineering review. This will bring the total project cost to \$4,163,464.31 for the grant application.

In an effort to reduce project cost, city staff will conduct concrete testing and some construction observation. Anderson Bogert has subcontracted local engineers and construction observers who have worked closely with city staff on previous local construction projects and a different qualified geotechnical firm was subcontracted at a savings of nearly \$21,000. This was done to again help lower project cost. City staff continues to work closely with Anderson Bogert as well as with its state and federal partners.

The FAA grant application total project cost is \$4,163,464.31 with the FAA to fund 90% of this cost or \$3,747,117. The local share of \$416,347.31 will be funded from the 2016 bond issue. \$431,800 was budgeted as the local share for this project. The grant application includes construction material, labor, construction oversight, and project management. The grant application deadline is July 2nd. Based on the continued support of the runway reconstruction project from the City Council, the application has been submitted. Once the grant is awarded by the FAA, City Council will review and approve the final agreement.

RECOMMENDATION/RATIONALE: It is recommended City Council approve the submission of the FAA grant application for the Reconstruction of Runway 6/24 and Associated Taxiways Project.

City of Muscatine and Muscatine County, Iowa

* 15. Descriptive Title of Applicant's Project:

For the last six years, the airport has experienced nine pavement blow-ups on the main runway and its parallel taxiway. In 2013, The City hired a consultant to perform a petrographic analysis, which concluded that ASR was causing expansion in the concrete that slowly caused the control and expansion joints in the pavement to close, making the pavement vulnerable to blow-ups in hot weather. The consultant expects these blow-ups to continue. Therefore, the City decided to pursue an aggressive plan to fully reconstruct Runway 6/24 and its parallel and connecting taxiways. This project includes the reconstruction of Runway 6/24 and associated taxiways.

PART II – SECTION C

The Sponsor hereby represents and certifies as follows:

1. Compatible Land Use – The Sponsor has taken the following actions to assure compatible usage of land adjacent to or in the vicinity of the airport:

- Height Zoning Ordinance (adopted 2-05-76)
- Land use planning/zoning (adopted 6-06-2002)
- Comprehensive plan in place with airport land use included

2. Defaults – The Sponsor is not in default on any obligation to the United States or any agency of the United States Government relative to the development, operation, or maintenance of any airport, except as stated herewith:

Not applicable.

3. Possible Disabilities – There are no facts or circumstances (including the existence of effective or proposed leases, use agreements or other legal instruments affecting use of the Airport or the existence of pending litigation or other legal proceedings) which in reasonable probability might make it impossible for the Sponsor to carry out and complete the Project or carry out the provisions of the Grant Assurances, either by limiting its legal or financial ability or otherwise, except as follows:

Not applicable.

4. Consistency with Local Plans – The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

Yes.

5. Consideration of Local Interest – It has given fair consideration to the interest of communities in or near where the project may be located.

Yes.

6. Consultation with Users – In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport which project is proposed.

Yes.

7. Public Hearings – In projects involving the location of an airport, an airport runway or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

Not applicable.

8. Air and Water Quality Standards – In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable and air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

Not applicable.

PART II – SECTION C (Continued)

9. Exclusive Rights – There is no grant of an exclusive right for the conduct of any aeronautical activity at any airport owned or controlled by the Sponsor except as follows:

No exclusive rights granted.

10. Land – (a) The sponsor holds the following property interest in the following areas of land* which are to be developed or used as part of or in connection with the Airport subject to the following exceptions, encumbrances, and adverse interests, all of which areas are identified on the aforementioned property map designated as Exhibit "A":

Tracts 1, 2, 3, & 4 (all fee simple interest) are associated with this project & are identified on the 7/19/2006 Exhibit A Property Map.**

The Sponsor further certifies that the above is based on a title examination by a qualified attorney or title company and that such attorney or title company has determined that the Sponsor holds the above property interests.

(b) The Sponsor will acquire within a reasonable time, but in any event prior to the start of any construction work under the Project, the following property interest in the following areas of land* on which such construction work is to be performed, all of which areas are identified on the aforementioned property map designated as Exhibit "A":

Not applicable.

(c) The Sponsor will acquire within a reasonable time, and if feasible prior to the completion of all construction work under the Project, the following property interest in the following areas of land* which are to be developed or used as part of or in connection with the Airport as it will be upon completion of the Project, all of which areas are identified on the aforementioned property map designated as Exhibit "A"

Not applicable.

*State the character of property interest in each area and list and identify for each all exceptions, encumbrances, and adverse interests of every kind and nature, including liens, easements, leases, etc. The separate areas of land need only be identified here by the area numbers shown on the property map.

**which is incorporated herein by reference

PART IV – PROGRAM NARRATIVE (Attach – See Instructions)

PART IV
PROGRAM NARRATIVE
(Suggested Format)

PROJECT : 3-19-0063-020
AIRPORT : Muscatine Municipal Airport, Muscatine, Iowa
1. Objective: Reconstruct Runway 6/24 and Associated Taxiways
2. Benefits Anticipated: Eliminate expensive emergency patching for pavement blow-ups. Substantially decrease runway closures for emergency repairs. Improve airport safety by decreasing foreign object debris (F.O.D.) from existing crumbling pavement.
3. Approach: (See approved Scope of Work in Final Application) Remove existing failing pavement/replace with new PCC pavement. Existing pavement will be removed, crushed, and reused as rock base for the new pavement.
4. Geographic Location: Runway 6/24 and associated taxiways, Muscatine Municipal Airport, Muscatine, Iowa
5. If Applicable, Provide Additional Information: For the last six years, the airport has experienced nine pavement blow-ups on the main runway and its parallel taxiway; these blow-ups have required emergency patching. These pavements are approximately twenty years old and were designed with a twenty year design life. According to the November 2014 Iowa DOT Pavement Management Report, the PCI of 85% of Runway 6/24 was listed as 65. In 2013, The City hired a consultant to perform a petrographic analysis, which concluded that ASR was causing expansion in the concrete that slowly caused the control and expansion joints in the pavement to close, making the pavement vulnerable to blow-ups in hot weather. The consultant expects these blow-ups to continue.
6. Sponsor's Representative: (include address & telephone number) Adam J. Thompson City of Muscatine City Hall 215 Sycamore Street Muscatine, Iowa 52761 Phone: (563) 262-4141
