Re: Fireworks Permit

I would like to have a party on October 24th, 2009 to honor my kids' birthdays. We would like to have fireworks with your approval as we have the past 3 years. We usually have a bonfire, hayride and then fireworks. The fireworks are bought and shot by J & M Displays, a licensed pyrotechnician. They set up, fire, and clean up the fireworks and are in total control of the show.

I live south of the bypass on highway 61 and my nearest neighbor is approximately 1/2 mile away. I have spoke with most of my neighbors to inform them of my intentions.

Thank you.
