Hi Fran,

The other significant proposal to council is that the critical employee list have some changes made to it.

Because of the current use of standby and changes in the way employees are scheduled, staff is recommending the following positions be removed from the critical employee list.

These include:

Treatment Plant Operators  
Equipment Operators I, II, and III in the Roadway Maintenance division  
Vehicular Mechanics

Equipment Operators in Collection and Drainage will remain on this list, as will personnel assigned to the lift stations.

Thanks,  
Stephanie
