To: A.J. Johnson, City Administrator

From: Chief Dalbey

Subject: Self Contained Breathing Apparatus Upgrade Bids

The results of the bidding for the SCBA upgrades are as follows:

Municipal Emergency Services; Fremont, Nebraska

- 35 – Scott NFPA 2002 upgrade kits
- 38 – Scott Dual EBSS kits
- 6 – Scott RIT-PAK II (w/cylinder, facepiece, and regulator)

Total Cost - \$66,461.00

Ed M. Feld Equipment Company; Carroll, Iowa

- 35 – Scott NFPA 2002 upgrade kits
- 38 – Scott Dual EBSS kits
- 6 – Scott RIT-PAK II (w/cylinder, facepiece, and regulator)

Total Cost - \$64,960.00

All of the items are stock Scott parts so they are identical and come from the same company. In addition, the Ed Feld Company normally provides our SCBA maintenance services. I recommend that the purchase of the listed items be made from Ed Feld Equipment Company, the low bidder.

This purchase is a part of the Assistance to Fire Fighters grant award we received. The Federal share is 90%; the City is responsible for 10%, **\$6,496.00**. The portion of the award allocated for this purchase was \$79,200.
