**Re:** Request to Accept an Extension to Sevig Street as a Publicly Maintained Street

**INTRODUCTION:** Wal-View Developments, LLC has submitted a request for the City of Muscatine to accept an extension to Sevig Street a publically maintained street, and to accept the dedication of small of amount of right of way needed for this extension of Sevig Street.

**BACKGROUND:** Wal-View Developments LLC has developed a major warehouse and distribution center at the GSTC Industrial Park subdivision. Lot 1 contains a 550,000 square foot warehouse and, Lot 2 contains a 300,000 square foot warehouse on the proposed Lot 2. Lot 3 is intended to provide a location for the future development of warehousing space.

Sevig Street was constructed as part of the development of the warehouse on Lot 1. In 2014 Sevig Street was accepted by the City of Muscatine as a public street. On February 10, 2015 the final plat for the GSTC Industrial Park was approved, this plat dedicated right of way to extend Sevig Street approximately 350 south feet order to provide to Lot 2 and Lot 3.

Wal-View Developments, LLC has now completed construction, to all applicable City standards of this extension to Sevig Street and is requesting that it be accepted as a public street. Because a small portion of the souther end of this extension was constructed outside of the right of way, Wal-View Developments, LLC is dedicating, as right of way, a small portion of Outlot A, so that entire extension of Sevig Street is located within the public right of way.

The City Engineer has submitted a memo stating that the extension to Sevig Street has been constructed to all applicable City standards.

**RECOMMENDATION/RATIONALE:** To approve the request to accept the extension of Sevig Street as a publically maintained street and to accept an associated dedication of right of way.

RE: Sevig Street Acceptance of Public Right-of-Way

**INTRODUCTION:**

The subdivision for the GSTC warehouses in the City's industrial park, showed public right-of-way to access Lot 3 of the subdivision. The intent is to always have public access to this lot.

**BACKGROUND:**

At the time of inspecting this improvement as a public street, two concerns were identified. One was that the street alignment had been changed and the street was outside of the right-of-way platted and the other was that the joints in the PCC street were not sealed. Recently the street was re-inspected and the joints have been sealed and a recent plat has been processed to provide a sliver of new right-of-way that keeps the street on dedicated right-of-way. With these two concerns taken care of the Public Works staff has recommended the street be accepted as a public street.

**RECOMMENDATION/RATIONALE:**

Staff recommends City Council accept this second portion of Sevig Street as a public street per the intent of the plat of subdivision previously approved.
