**MEMORANDUM**

**To:** Mayor and City Council Members  
**Cc:** Gregg Mandsager, City Administrator  
**From:** Steven Boka, Director of Community Development  
**Date:** December 12, 2011  
**Re:** Airport – Agricultural Lease Extension – Public Hearing

---

**INTRODUCTION:** The City owns and operates the Muscatine Municipal Airport on approximately 642 acres of real estate. Of that amount, 356 acres is either used directly for airport related activities and cannot be used for any other purpose. The remaining 286 acres is located within the airport fence and has been acquired to prevent construction within a variety of aircraft approach zones. The remaining 286 acres may be utilized for agricultural use.

**BACKGROUND:** Over the last 20+ years, the city has leased a portion of the airport property for agricultural use. The current lease holder, Bartenhagen Farms, has continued to farm the property by mutual agreement for the last few years. After determining their continued interest in farming the airport property, staff negotiated a proposed extension of the existing lease, new lease rate, consideration of the property that has been removed from agricultural use, property being utilized for the growth of non-cash crops, etc.

**RECOMMENDATION/RATIONALE:** The city has been pleased with the performance of the Bartenhagen family, their understanding of airport use regulations, security requirements, and construction activities that have disrupted their operations. Since the lease extension involves a duration of more than two years, the Code of Iowa requires a public hearing prior to executing the lease extension. It is therefore recommended that the City Council set a public hearing for January 5, 2012 and publish the attached Notice of Public Hearing in the Muscatine Journal as required.
