

RESOLUTION NO. 92653-0214

**AWARD CONTRACT FOR
CEDAR STREET RECONSTRUCTION PROJECT**

It is resolved that the following bid is determined to be the lowest responsible bid for the Cedar Street Reconstruction Project.

<u>NAME & ADDRESS CONTRACTOR</u>	<u>AMOUNT OF BID</u>
All American Concrete, Inc. 1489 Hwy 6 West Liberty, IA 52776	\$3,501,154.97

It is further resolved that the Cedar Street Reconstruction Project is awarded to the above named contractor for \$3,501,154.97, and the Mayor and City Clerk are authorized and directed to enter into a written contract with said contractor covering the furnishing of material for, and construction of the Cedar Street Reconstruction Project, such contract not to be binding until approved by resolution of this Council.

It is further resolved that the amount of the contractor's bond is fixed at \$3,501,154.97, which is one hundred percent of the contract price.

PASSED, APPROVED, AND ADOPTED THIS 6th DAY OF FEBRUARY, 2014.

DeWayne M. Hopkins, Mayor

Engineering

To: Randy Hill, Public Works Director
FROM: Jon Lutz, City Engineer
DATE: February 4, 2014
RE: Cedar Street Reconstruction Project – Award

INTRODUCTION:

The Cedar Street Reconstruction Project was bid through Iowa DOT at the January 22nd, 2014 letting. This project involves pavement removal, grading, storm sewer and new 3 lane concrete paving on Cedar Street from Houser to Parham. Other improvements include sidewalks, a 10' wide trail on the north side, a roundabout at Logan, traffic signals at the High School and intersection widening at Houser, the High School, Hayes School, Cedarwood Drive, Stonebrook, Wood Creek, and Parham.

BACKGROUND:

Other City work on this corridor to prepare for the final reconstruction included Cedar Culvert Extensions, Cedar Clearing, Cedar Utilities, Logan Culvert Extensions and Cedar Water Adjustments. Alliant has relocated high pressure gas along the entire corridor. Muscatine Power & Water has relocated overhead electric and communications to underground from Parham to Logan. Century Link has planned to relocate various telephone infrastructures. Shortly after paving is completed, MPW will install new street lighting on the entire corridor and Muscatine Public Works will install all necessary signage.

Construction plans were modified in the summer of 2013 to include a single lane roundabout at the intersection of Cedar and Logan. This design eliminates the need for traffic signals, calms traffic on Cedar, improves traffic flow from Logan, and provides safer pedestrian crossings and has capacity to allow for future traffic growth. Motorists will learn to navigate this new feature and will soon gain confidence and appreciate the convenience it provides. Traffic studies have shown that minor accidents will occur on roundabouts. However, due to the low speed and angle, broadside and head on accidents causing serious personal injury are significantly reduced.

This project follows the complete streets policy by providing safe opportunities for pedestrians, bikers, passenger vehicles, school buses, trucks and emergency vehicles.

**"I remember Muscatine for its sunsets. I have never seen any
on either side of the ocean that equaled them" — Mark Twain**

The engineers estimate was \$3,650,414.00

Bids for the Cedar Street Reconstruction Project were received as follows:

All American Concrete	\$3,501,154.97
Heuer Construction	\$3,555,020.57
Langman Construction, Inc.	\$3,649,742.22
Vieth Construction Corporation	\$3,687,855.34
Horsfield Construction, Inc.	\$3,712,946.24
Valley Construction Company	\$3,998,309.90
Muscatine Bridge Co., Inc	\$4,259,143.74
Brandt Construction Co.	\$4,272,415.35
Hawkeye Paving Corporation	\$4,520,571.20

Due to the lack of other similar work available for contractors, this project attracted considerable interest as shown by the 9 bidders. The competitive nature thus resulted in lean low bids favorable to the City. All American Concrete of West Liberty Iowa has recently completed work on Clay Street, West Hill Phase 1 and on Dawson Street. Iowa DOT has reviewed their bid, qualifications and DBE guarantee, and recommends All American Concrete.

This project will be funded by a combination of Federal STP funds (approx. \$1,700,000.00), G.O. bonds, a \$138,000 Traffic Safety Improvement Grant, Road Use Tax dollars, and collection and drainage funds for storm sewer related work.

Project administration will be provided by a team of trained hourly contract inspectors including Bill Haag, Steve Dalbey and Jim Edgemond. Construction will likely begin in April with the area from Houser to Imperial Oaks under construction when school is out for summer. We are optimistic that the project can be primarily completed this construction season. However, the Iowa DOT has allotted working days that will not require completion until spring of 2015.

RECOMMENDATION/RATIONALE:

It is the City engineer's recommendation to award the Cedar Street Reconstruction Project to All American Concrete in the amount of \$3,501,154.97.
