MEMORANDUM

To: Mayor and City Council Members
Cc: Gregg Mandsager, City Administrator
From: Steven Boka, Director of Community Development
Date: June 5, 2013
Re: Request to enter into 28E Agreement with the State of Iowa

INTRODUCTION: The City of Muscatine is requested to enter into a 28E Agreement with the Iowa Department of Public Health to provide inspection services, record keeping, and other activities related to swimming pools, spas, tanning facilities and tattoo establishments within the City of Muscatine and Muscatine County, for the period beginning July 1, 2013 and ending June 30, 2016.

BACKGROUND: The City of Muscatine has provided health inspection services on behalf of the State of Iowa for over 30 years. As discussed and approved by the City Council for the during the FY 12/13 Budget, the Community Development Department was reorganized to shift the health inspection services to an existing employe by providing support for the additional training required by the State to keep the service at the local level. The State Department of Public Health is now satisfied that the City has the training and capacity to continue providing the required health inspection services. To that end, the City Council, as the local Health Agency, is requested to approve an Interagency Agreement with the Department of Public Health as set out in the attached Agreement. The Agreement has also been discussed with the Muscatine County Board of Supervisors and Muscatine County Board of Health and has received their support for a county-wide program.

RECOMMENDATION/RATIONALE: Departmental staff has worked very hard to complete the required training and assure the State that the City has the capacity to operate, manage and enforce the health inspection program the way that is expected by the State. In recognition of that effort, the State Department of Public Health is now offering a 3-year Agreement with the City that will extend to serve the entire county. It is recommended that the City Council approve the attached Interagency Agreement with the Iowa Department of Public Health as set out in the attached Agreement.

Muscatine City Council Members:

The Muscatine County Board of Health reviews pool, tanning, and tattoo inspections for Muscatine County that are completed by a state 28E agreement with Johnson County Public Health. At our most recent board meeting on March 20, 2013 the board members consulted with Steve Boka and Ken Rogers from the city of Muscatine. Ken Rogers provides this service to the city and has the capacity to provide this service to those establishments in the county, but are outside of city limits.

The Board of Health is recommending to the city of Muscatine to provide this service to the entire county starting July 1, 2013. The current state contract agreement with Johnson County Public Health ends on June 30, 2013 as does the current city of Muscatine 28E contract agreement with the state. The timing for this change is very appropriate with the ending of these three year agreements.

The Board feels that the service provided by the city of Muscatine would improve the quality of service to our county. The Board recognizes that this will require a 28E agreement with the state to change the city's 28E agreement contract from city of Muscatine to county of Muscatine, and that this would require approval by the Muscatine City Council. The Board of Health hopes that the Muscatine City Council will approve this change for the benefit of our county.

Sincerely,

Jim Wester, Chairman
